

Bright

Bright is an innovative ultra slim light panel. It is a LCD backlight panel using the latest technology of dot matrix optical design (CCFL), originated from Japanese LCD Technology.

This technology is widely used in flat screen TV, handphone screen, flat monitor PC and notebook. The uniqueness of its features : low heat generation, long lamp life span, low power consumption and even illumination make it a perfect tool as ultra slim and light lightbox. This new invention produces stylish, sleek and sophisticated light panel which ensures images of stunning clarity.
